

Dear Sir / Madam

We're pleased to announce we have launched the Medicspot Innovation Grant, open to all UK students who will be going on to study a degree related to health, medicine, nursing or life sciences. We run this grant annually, giving students £500 to help get them off to the best possible start.

The Medicspot Innovation Grant awards £500 to UK students going on to study a degree related to health, medicine, nursing or life sciences. Applications must be submitted online by 31 March each year. More information: www.medicspot.co.uk/grant

We hope this will help students at Helena Romanes School and Sixth Form Centre when it comes to making the decision to study a degree related to health, medicine, nursing or life sciences.

Kind regards,

Lucas
